INSTRUCTION BOOKLET

**WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES**

## **WARNING - Seizures**

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions**

**Altered vision**

**Eye or muscle twitching**

**Involuntary movements**

**Loss of awareness**

**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

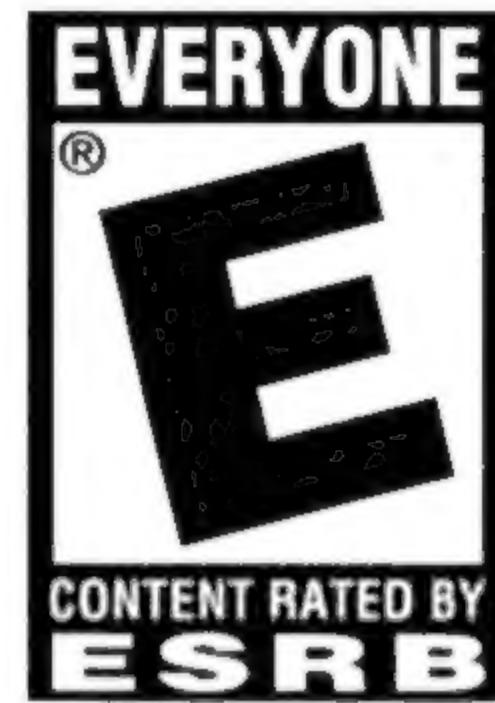

## **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Look around for letters that can be joined up to create a word!

Move the cursor using the **Control Pad** to the first letter in the word and press the **A Button** to select it. # GAME RULES

Lex eats the word and new letters drop in from above to fill up your library!

You can press the **B Button** to go backwards, canceling the last letter you selected. This can be useful if you've made a mistake. You may also simply select another letter that is not bordering the currently selected letter to cancel the current word.

## THE GAME SCREEN

The game screen for BOOKWORM is comprised of the following elements:

### Score

This indicates your overall game score.

### Level Number

This displays the current game level.

# THE GAME SCREEN

## Progress Bar

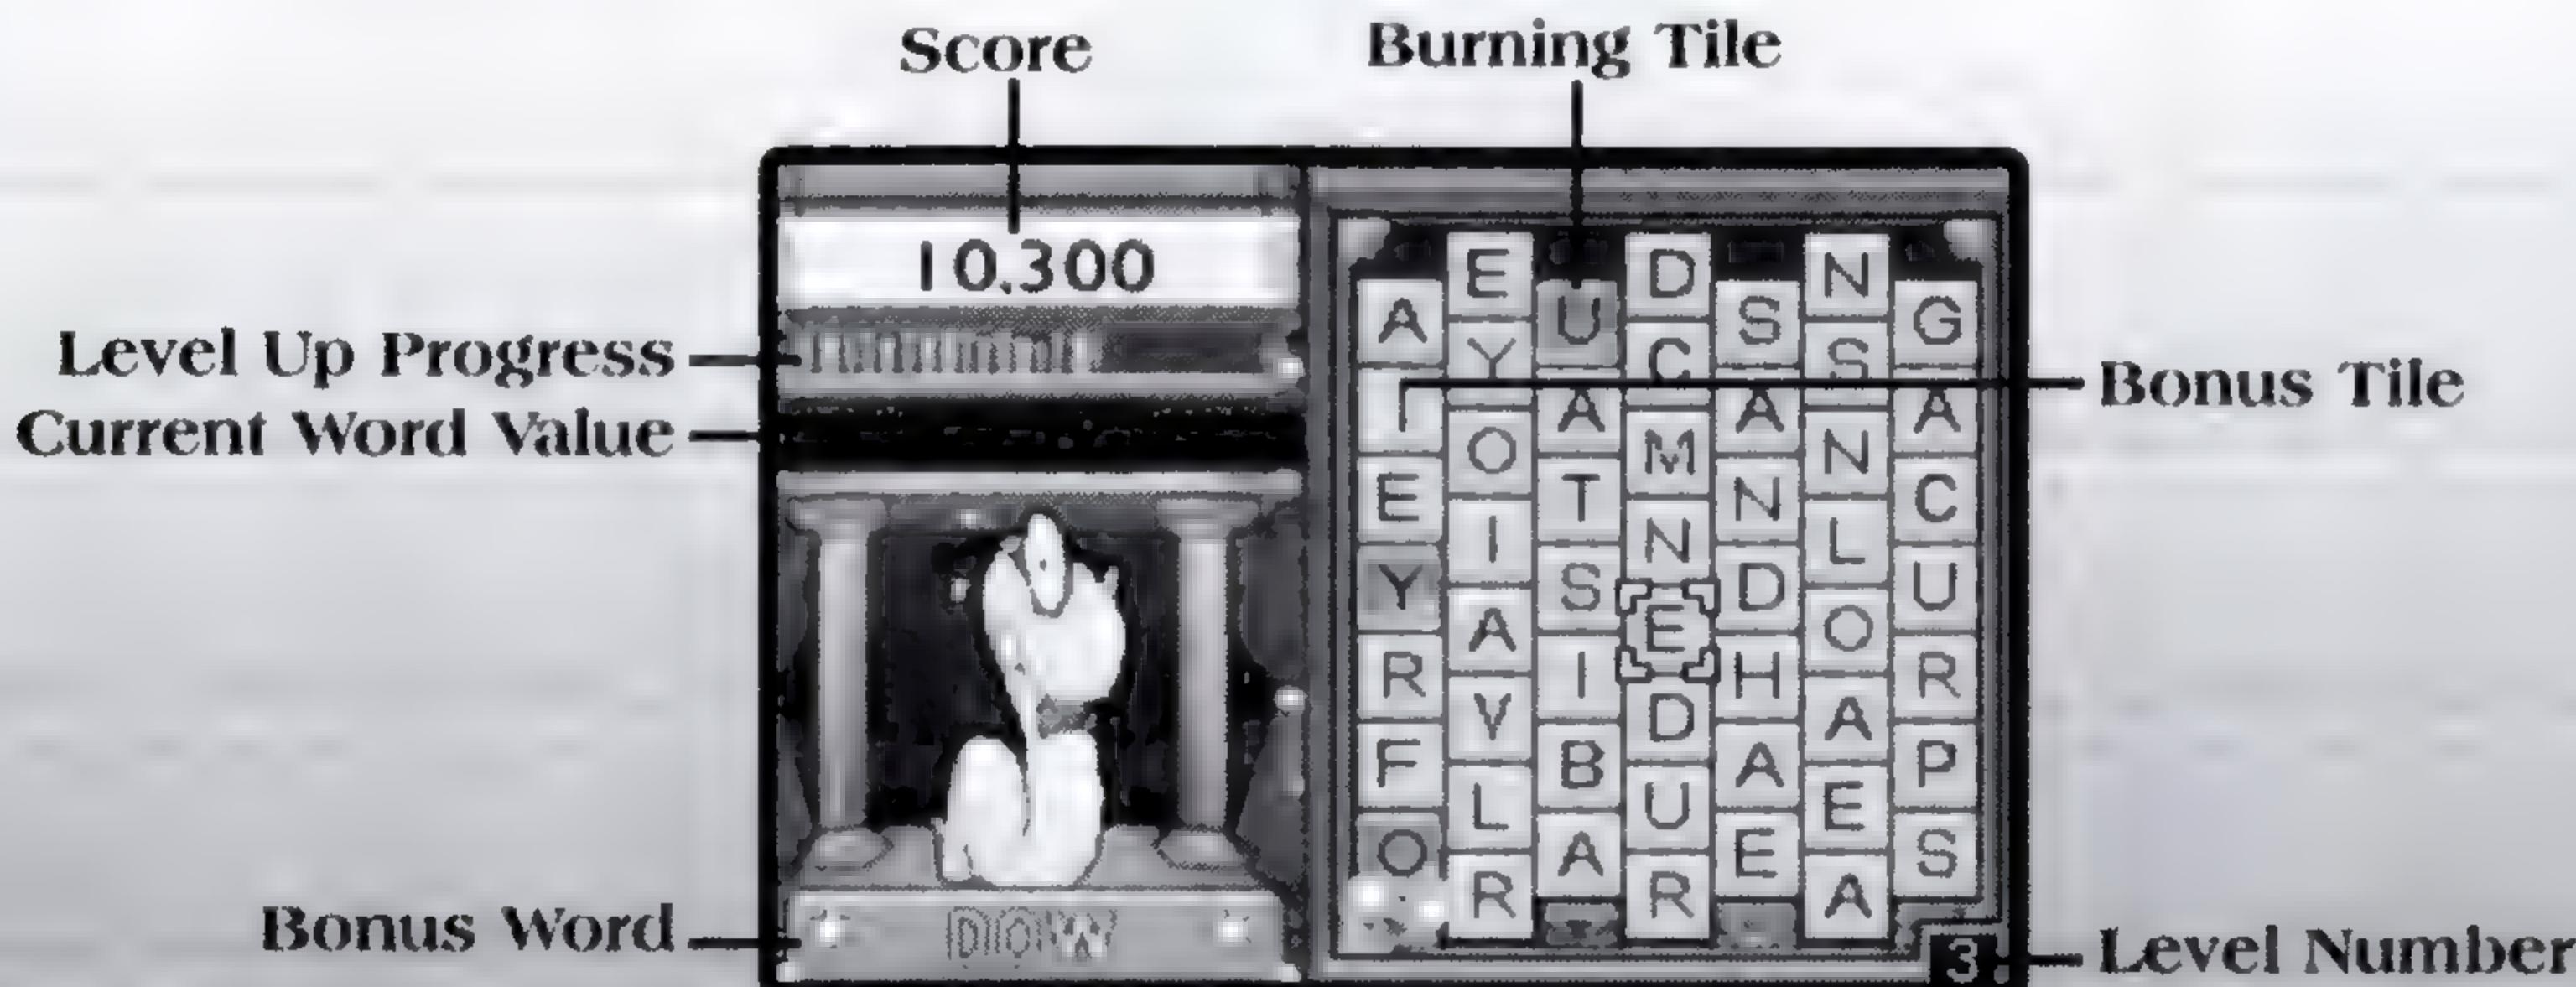

This shelf of books depicts your progress in the current level. Fill the shelf completely to move up to the next level.

## Current Word Value

## Bonus Word

Find this word to receive a special score bonus!

# BURNING TILES

While you're making words to feed the BOOKWORM, watch out for fiery red burning tiles!

Once they're on the screen, every time you take a turn, these tiles will burn through the letter directly under them! When one of these red tiles gets to the bottom of the screen, watch out! You've only got one more turn before your library catches on fire and it's game over! You can get rid of burning tiles by using them in a word like any other letter.

# LEVELING UP

Every time you create a word, the Progress Bar will fill up a bit more. When this bar is full, you will advance to the next level!

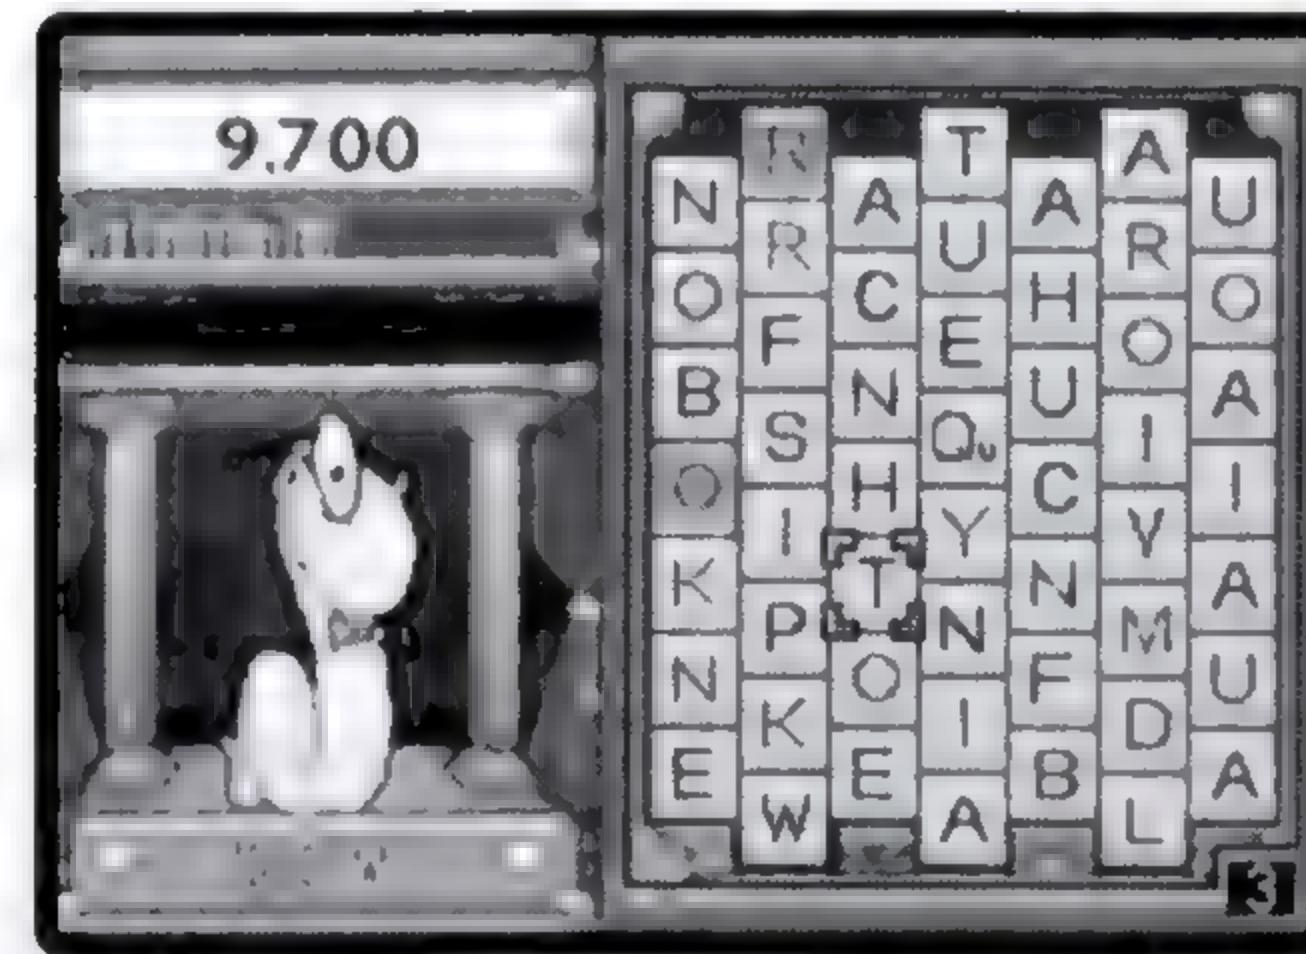

Your progress will be automatically saved, and you can see your rank, the best word you created, and the game time so far.

Press the **A Button** when you're ready to continue to the next level.

# BONUS TILES

Sometimes you will see green tiles appear on the board. These are bonus tiles you can use to multiply your score!

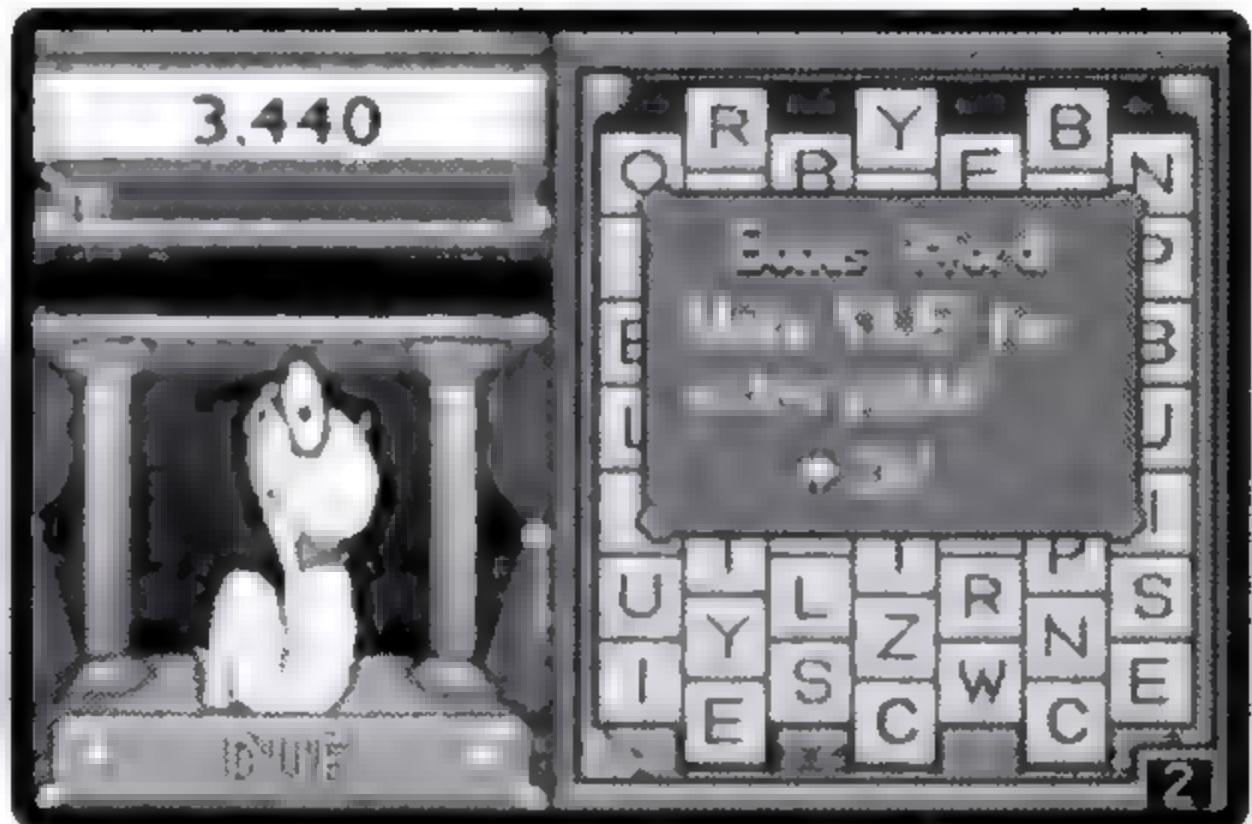

When a green bonus tile is part of a word, the total value is doubled! If you can arrange to have 2 green tiles in a word, the value will be quadrupled!

You can also earn other types of bonus tiles worth even more points! Making words of five or more letters in length can earn you the valuable Golden tiles...

# BONUS WORDS

Starting on the second level, you'll notice Bonus Words that appear in the bottom left corner!

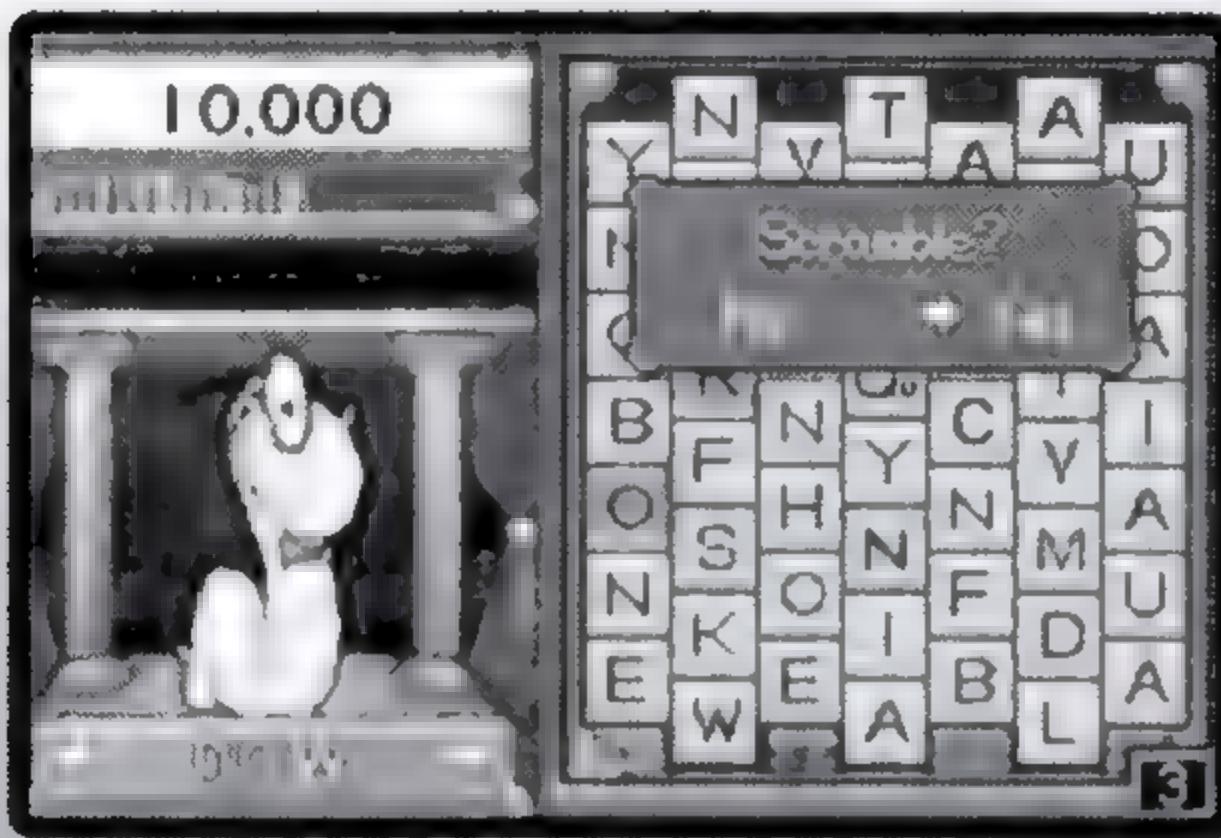

If you can successfully form a Bonus Word, you'll score mega points! Each Bonus Word after the first is worth even more!

# SCRAMBLE

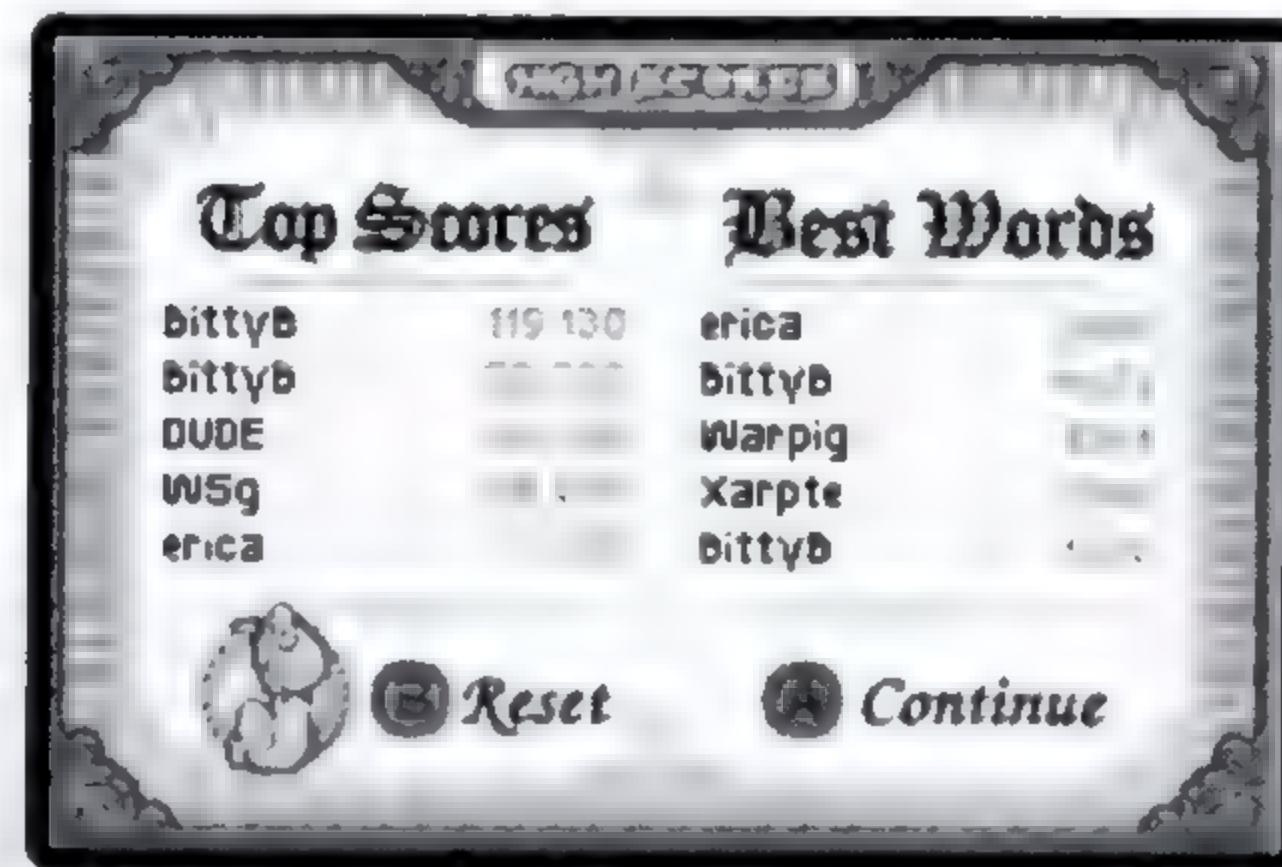

Stuck? Can't figure out how to get rid of that burning tile? You can Scramble the letters onscreen by pressing **Select**.

But be careful! Every time you scramble, more red tiles are dropped into your library! If you scramble too much, you'll be swamped with burning tiles!

# HIGH SCORES

When your game ends, you'll see the *High Score Screen*.  
Were you able to place in the top 5?

You can reset the High Scores and start afresh by pressing the **B Button** on this screen. You'll be given a chance to confirm your selection before proceeding. When prompted again, press the **A Button** to continue, or the **B Button** to cancel your selection.

\*Scores will not be saved until the *High Score Screen* is displayed.

# SCORING TIPS

- Make longer words! You can acquire more points for words that are 5 or more letters long!
- Make words with unusual letters! You get more points for using letters like Z, X, J and Qu than you do for using common letters like A or S.
- Plan ahead! Try to arrange letters so that you can make longer words later in the game.
- Use bonus tiles well! Don't waste bonus tiles on simple 3 letter words if you can help it... instead, save them until you can make a long word, or, better yet, a long word with multiple bonus tiles. This can help you earn the special gem tiles!
- When you get the rare gold or gem tiles, use them even more carefully! A long word with lots of high-powered bonus tiles in it can score you huge amounts of points!
- Get rid of red tiles as soon as you can. Not only do you risk losing the game, but they can burn through letters you've carefully set up, ruining your big words.
